WARNING: DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with our Nintendo Entertainment System (NES) and NES games. Your projection television screen may be permanently damaged if used with still enemy scenes or patterns are played on your projection television. Similarly, damage may occur if you play a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other food or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

PRECAUTIONS

Always make sure the power is off when inserting or removing the game pak from your system. This is a highly sensitive game pak. Avoid subjecting it to extreme temperatures or shocks. Store at room temperature. Never attempt to dismantle it.

Do not touch the terminal connectors or get them wet, or the circuitry may be damaged. Never insert your fingers or any metal objects into the terminal leads.

Use of thinners, solvents, benzene, alcohol and other cleaning agents can damage the game pak.

ADVISORY

READ BEFORE USING YOUR NES/SUPER NES

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television ads and/or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. We suggest that you consult your physician if you have an epileptic condition or if you experience any of the following symptoms while playing video games: altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion and/or convulsions.

Muttley Takes Charge!

As we join the dashing duo today, Dick Dastardly and Muttley are once again preparing to join in the world-famous Wacky Races. In the recent past, our panting pair of heroes challenged this race course and lost painfully. It

was pure pandemonium. Dick Dastardly and his daring deeds usually land Muttley in more trouble than one dog can dig his way out of. So he's decided to take charge. Yes, this flea-fearing friend of man is going to do whatever he can to get his bumbling buddy through the race in one piece — and as a winner! But does this brave example of canine cunning know exactly what he's getting himself into? The Wacky Race has three courses, and in each course are several stages. Muttley must manage to rescue Dastardly at the end of every stage, with only his bite, his brains, and a few secret weapons for help. And that's not even mentioning the many mighty mean bosses awaiting our hero on each stage! Pull up a seat, folks, and hold on to your hats!

Choose a Course!

The three courses are A, B, and C, with A being the best for beginners, and C a true test of toughness. Our hero will get farther if he starts with A to learn the rules of the road. Then he will be ready to race right through difficult courses.

The Controller

Control Pad

Use the Control Pad to move Mutley left or right, and to make him bend down or dodge when necessary.

Mutley will need to think fast on his paws, and make many tricky moves, so you'll be using every one of the controls.

A Button

Like most pups, Mutley can jump pretty high when he really has to. Just press A and he'll take a leap.

Select Button

It appears that the mighty Mutley is fully prepared to use several kinds of secret weapons. The daring dog will show no mercy to Dastardly's foes. Press this button to get things from the items window.

Start Button

On your mark, get set, go Start! And they're off! To send Mutley on his way, press Start. Or to give a propped pooch a rest during the game, push Start to pause the action.

B Button

Pushing B sends bold mutley into attack mode. If no weapon is selected, he can bite fiercely. And, if a weapon is chosen, B lets Mutley use it.

On the Screen

Enemy

Muttley and dandy Dick Dastardly have a lot of enemies in this race. Here's one of them now!

Diamond

Muttley keeps track of how many diamonds he collects. Each 100 will get him another life.

Muttleys

These little images of Muttley let you keep track of how many lives our racing hero has.

Time

This clock shows how much time Muttley has.

Muttley

Here for one day.

Hearts

This meter shows how many more hits the racing dog can stand.

Items Window

When Muttley picks up a bone, this window will show the items that can be or already have been selected for use.

Item

As he races along his way, in true canine fashion, Muttley should stop and pick up items.

Rev-Up Items

The race really heats up whenever Mutley sinks his teeth into one of the items shown here. These things rev him right up by giving him some special ability.

DIAMOND

Mutley goes for diamonds because 100 of them will give him an extra life.

To get these beautiful diamonds, Mutley charges underneath them, and makes a graceful upward leap.

BONE

Late the other night, Mutley snuck onto the courses and hid many items disguised in these bones. Now when he grabs hold of a bone, he will find a cannonball, sonic bark, an extra energy, or even wings.

Mutley gets hold of bones in the same delicate manner he uses to grab diamonds. A quick dash beneath the bone, a powerful upward leap, and CHOMP! the bone is his.

BOMB

The bomb with a red arrow over it is a mighty Mutley weapon.

With the bomb, Dick Dastardly's friend and helper can fire real cannonballs at their foul enemies.

SONIC BARK

All the world knows about the strength of Mutley's fierce bite.

But with SONIC BARK, he becomes a fearsome foe to all those who stand in his way — slowly, yet surely chomping onward.

WING

Mutley can stay in the air longer when he jumps if he finds and uses wings.

Push A twice and hold it down the second time so that this rescuer of helpless forces can go flying.

HEARTS

Select the heart when an arrow is above it to get extra energy.

Simply wait until the red arrow appears above Mutley's hearts, and then choose them from the items window.

Running the Race

COURSE A

START HERE

In preparation for his great adventure, Mutley should choose course A to warm up. He can practice his leaps, ducks, and aim. He can also learn about where Dick Dastardly is, and how to rescue him.

CASTLE

Mutley should now go through the castle grounds to challenge Big Gruesome and the Grumpy Gnomes.

DESERT

Once in Mutley's desert, he takes a long nap, and then he falls into the quicksand. Sergeant Blot and his Army of Snail Soldiers await.

FOREST

The gnomes and tree-lice who live here are quite dangerous. And even if he finds a way to escape the jungle, he still has to face Kralik Rebut and his Blaze Wagon.

COURSE C

START HERE

To get through C, Muttley will have to use all the experience he's earned till now.

ICE VILLAGE

Muttley may go sliding right into deep trouble if he doesn't watch out for foes and green bears.

DOWNTOWN

Our charging chom will face big jumps, both at day and at night — plus an ugly Muttley clone chasing him.

THE MOUNTAIN

Heads up! The rolling stones and jumping rocks move fast, so Muttley has to be ready to zoom off.

WESTERN TOWN

Well, partner, Muttley's gotta keep a keen eye peeled for Lazy Luke an' his pals.

Where are you going? Look out! Hey, watch out for the — Are you insane? I thought you said you were going to help me! Is this help? You need practice! Build strength, speed, HURRY!

Don't bother me now! I can run this race by myself, O.K.?! I know all about good timing and I have better aim than you ever will! Let go!

Helpful Hints

THE ICE VILLAGE

In the Ice Village, Muttley needs to slow down and plan ahead. It is very slippery here and it's easy to slide off a cliff or into an enemy.

JUDGING DISTANCE

This race is full of many long and tricky jumps. But Muttley looks before he leaps, and uses his wings for more control.

COLLECT DIAMONDS

Muttley's greed is rather useful in this game. For every 100 diamonds Muttley collects, he will get a one up.
